[luciaespana.com.ar](https://luciaespana.com.ar)

Experienced Front End Developer with 3 years' expertise in HTML, CSS, JavaScript, React JS (including Next JS), TypeScript, Angular, and Node.js. Proficient in both independent and collaborative Front-End development projects.

## Work Experience

### MyDevClub +54 - Full Stack Developer

March 2023 - present

Buenos Aires, Argentina - Remote

- Executed various projects for clients using Next.js with TypeScript for the Front End, incorporating Tailwind for styling, and Node.js for the Back End.
- Create a React component library from scratch using Storybook, ensuring streamlined development and enhanced collaboration across the team.

### Shift Start-Up - Junior Front End Developer

November 2021 - March 2023

Buenos Aires, Argentina - Remote

- Experience in creating, designing, developing, and maintaining WordPress websites.
- Practical expertise in implementing React JS with JavaScript, particularly in crafting e-commerce websites and integrating Firebase as a database solution.

## Technical Projects

### Dynamic API Integrations

- [star-wars-luespana.vercel.app](https://star-wars-luespana.vercel.app) This website enables you to search and view information about each Star Wars character. Pagination has been implemented to optimize the presentation of information.
- [weather-app-luespana.vercel.app](https://weather-app-luespana.vercel.app) This simple website is a project where you can inquire about any city around the world and view its weather and additional details.

### MDC Client Website

[www.palomasansores360.com](https://www.palomasansores360.com)

- It's a dynamic page developed with Next JS and TypeScript. The content within the sections can be customized using the administrator interface, utilizing Node JS and Firebase as the underlying database.
